NEED

Pradhan Mantri Gram Sadak Yojana (PMGSY) plays a vital role in promoting access to economic and social services and strengthening rural livelihoods by providing all weather connectivity to eligible habitations. Contractors role in achieving the objectives of PMGSY is critical. This needs understanding of the mechanism, process, quality control, maintenance, safeness, environmental concerns, road side plantation by Planting fruit bearing and other long life and shelter giving trees on either side of PMGSY roads. These are expected to provide protection to roads, check soil erosion, and more importantly mitigate the effects of climate change.

In this background a one day training Programme is proposed to orient the contractors about the various concerns of PMGSY and the role and responsibility they need to play during construction of the all-weather roads under PMGSY.

PROGRAMME OBJECTIVES

- To orient participants on environmental concerns, road safety and greening of local areas.
- To orient about the quality control and maintenance mechanism of the roads constructed under PMGSY.
- To orient about plantation standards, species selection in local agro climatic conditions and seasonality.

TRAINING METHODOLOGY

Both in-house presentation, discussion as well as field practice would constitute the methodology of delivering training inputs. Faculty from NIRDPR-NERC

and also experts from outside would be invited to act as resource persons.

PARTICIPANTS LEVEL

Contractors of PMGSY Projects.

COURSE DIRECTOR

Dr. K. Haloi
